Independent Auditor's Report

I have examined the General Purpose Financial Statements of Rich Township as of March 31, 2004, as listed in the Table of Contents, for the year then ended. These financial statements are the responsibility of the Township's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the General Purpose Financial Statement referred to above present fairly, in all material respects, the financial position of Rich Township, at March 31, 2004, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

The accompanying financial information listed as supporting schedules in the Table of Contents is presented for purposes of additional analysis and is not required part of the General Purpose Financial Statements of Rich Township. The information has been subjected to the auditing procedures applied in the examination of the General Purpose Financial Statements, in my opinion, is fairly stated in all material respects in relation to the General Purpose Financial Statements taken as a whole.

Township of Rich
Notes To Financial Statements
For The Year Ended March 31, 2004

The accounting methods and procedures adopted by the Township of Rich, Lapeer County, Michigan, conform to generally accepted accounting principles as applied to governmental entities. The following notes to the financial statements are an integral part of the Townships Comprehensive Annual Financial Report.

1. Summary of Significant Accounting Policies

Financial Reporting Entity

The Township was incorporated under the laws of the State of Michigan and operates as a General Law Township, with a Township Board form of government. As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the Township (the primary government) and its component units. The component units discussed below are included in the Township reporting entity because of the significance of their operational or financial relationships with the Township.

Component Units - In accordance with generally accepted accounting principles, there are no component units of Government required to be included in the Financial Reporting Entity either as blended component units or discretely presented component units.

Basis of Presentation - Fund Accounting - The accounts of the Township are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The Township has created several types of funds and a number of discrete funds within each fund type. Each fund is accounted for by a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures/expenses. The individual funds account for the governmental resources allocated to them for the purpose of carrying on specific activities in accordance with laws, regulations, or other restrictions.

The funds are grouped into fund types and generic funds as described below:

Governmental Fund Types - These are the funds through which most governmental functions typically are financed. The funds included in this category are as follows:

General Fund: This fund is established to account for resources devoted to financing the general services that the Township performs for its citizens. General tax revenues and other sources of revenue used to finance the fundamental operations of the Township are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds: The Special Revenue funds are used to account for the proceeds of specific revenue resources (other than assessments or expendable trusts) that are legally restricted to expenditures for specified purposes. These funds include: Cemetery Fund.

Fiduciary Fund Types - These funds account for assets held by the Township as a trustee or agent for individuals, private organization, and other units of governments. These funds are as follows:

Expendable Trust and Agency Funds: These funds, used to account for assets held in trust of as an agent for others, include the Tax (property) Collection Fund.

Account Groups - In addition to the broad types of governmental funds, the Township also maintains one account group as described below:

General Fixed Assets Account Group: This is not a fund but rather an account group that is used to account for general fixed assets acquired principally for general purposes.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied

The General Fund and Special Revenue Fund use a current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Agency Funds also use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred.

Budgetary Data - The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to April 1, the Township Clerk submits to the Township Board a proposed operating budget for the fiscal year commencing April 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior April 1, the budget is legally enacted.
4. The budget is used by the Township Board as a management tool during the year for all budgetary funds. The budgets are adopted on a cash basis which is not consistent with generally accepted accounting principles. Budgetary control is exercised at the departmental level.
5. Budget amounts are as originally adopted, or as amended by the Township Board. Individual amendments were not material in relation to the original appropriations which were amended.

Cash - The Township does not pool cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as part of the Township's investments.

Investments - Debt securities are valued at cost since it is generally the policy of the Township to hold such investments until they mature.

Due To / Due From Other Funds - Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

Other Assets - Other assets held are recorded and accounted for at cost.

Property, Plant, and Equipment - Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group. Public domain (infrastructure) general fixed assets consisting of certain improvements other than buildings, such as roads, sidewalks, and bridges, are not capitalized. Property, plant, and equipment acquired or constructed for general governmental operations are recorded as expenditures in the fund making the expenditure and capitalized at cost in the General Fixed Assets Account Group.

Property, plant, and equipment is stated at cost. Where cost could not be determined from the available records, estimated historical cost was used to record the estimated value of the assets. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer.

Township of Rich
Notes To Financial Statements
For The Year Ended March 31, 2004

Fund Equity - The unreserved fund balances for governmental funds represent the amount available for budgeting future operations. The reserved fund balances for governmental funds represent the amount that has been legally identified for specific purposes. Unreserved retained earnings for proprietary funds represent the net assets available for future operations or distribution. Reserved retained earnings for proprietary funds represent the net assets that have been legally identified for specific purposes.

Revenues and Expenditures/Expenses - Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees, and nontax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred.

Property Tax Revenues - Property taxes are levied on December 1 based on the assessed value of property as listed on the previous December 31. Assessed values are an approximation of market value. A revaluation of all real property must be made every year.

Property taxes are recognized as revenue when they are levied because they are considered to be both measurable and available. Proper allowances are made for estimated uncollectible accounts and delinquent accounts.

Vacation, Sick Leave, and Other Compensated Absences - The Township does not have any contracts or agreements with its employees or elected officials which require the payment of compensation during absence from duty nor do any such benefits vest to the right of the employee or elected official.

Total Columns - The Combined Financial Statements include total columns that are described as memoranda only. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Interfund transactions have not been eliminated from the total column of each financial statement.

2. Stewardship, Compliance, and Accountability

Michigan Compiled Laws, Section 129.91, authorizes the Local Unit to deposit and invest in the accounts of Federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

3. Cash and Investments

The Governmental Accounting Standards Board Statement No. 3, risk disclosures for the Local Unit's cash deposits are as follows:

	Carrying Amount	Bank Balances
Insured (FDIC)	\$ 427,311	\$ 427,311
Uninsured and Uncollateralized	0	0
Total Deposits	<u>\$ 427,311</u>	<u>\$ 427,311</u>

All cash deposits and investments of the Township are held by the Township in the Township's name.

For The Year Ended March 31, 2004

The GASB Statement 3 risk disclosures for the Local Unit's investments are as follows:

Investment Type	(1)	(2)	(3)	Carrying Amount	Market Value
Risk Categorized		NONE			
Operating Funds					
US Treasury Bonds					
Investment in Deferred					
Compensation Plans					
Total Risk-Categorized					
Investments					

The cash and investments that are represented by specific identifiable investment securities are classified as to credit risk by the three categories described below:

Category 1	Insured or registered, or securities held by the Township or its agent in the Township's name.
Category 2	Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the Township's name.
Category 3	Uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the Township's name.

4. Property Taxes

The Township is responsible for assessing, collecting, and distributing property taxes in accordance with enabling state legislation. Property taxes become a lien on the first day of December of the levy year and may be paid by the following February 14.

Property taxes are not recognized in compliance with NCGAI-3 which states that such revenue is recorded when it becomes measurable and available. Property taxes are recorded as revenue when collected.

The Township levied the following taxes:

General Government Services	<u>1.6422</u> mills
Mosquito Abatement	<u>2.8706</u> mills

5. Due To / From Other Funds

As of March 31, 2004, interfund receivables and payables that resulted from various interfund transactions were as follows:

	<u>Due From Other Funds</u>		<u>Due To Other Funds</u>
General Fund	<u>\$ 153,073</u>	Tax Collection	<u>\$ 153,073</u>
Total	<u><u>\$ 153,073</u></u>		<u><u>\$ 153,073</u></u>

7. Deficit Fund Balance or Retained Earnings Balances of Individual Funds

None

8. Comparative Data

Comparative total data for the prior year has not been presented.

9. Excess of Expenditures over Appropriations in Budgetary Funds

P.A. 621 of 1978, section 18 (1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the Township actual expenditures and budgeted expenditures for the budgetary funds have been shown on a activity basis. The approved budgets of the Township for these budgetary funds were adopted to the activity level.

During the year ended March 31, 2004, the Township incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

<u>General Fund</u>	<u>Total Appropriations</u>	<u>Amount of Expenditures</u>	<u>Budget Variance</u>
Highways, Streets, & Bridges	\$ 85,500	\$ 90,599	\$ 5,099

10. Post Employment Benefits

The Township does not provide any post employment benefits other than the pension benefits.

Members of the Township Board
Rich Township
Lapeer County, Michigan

Members of the Board:

In accordance with your request, I have made an examination of the financial statements of Rich Township for the fiscal year ended March 31, 2004. During the course of my examination, the following item came to my attention:

1) It is my opinion that the current year property taxes for Mosquito Control should be distributed prior to the need to borrow funds.

I thank the Township officials for the cooperation I received in the completion of this examination. Should you have any questions in connection with the above, contact me at your convenience.

Sincerely,

Lehn King
